EDUCATION

MSc. Computer Science - Artificial Intelligence

Leiden University

📅 Sept 2020 - Dec 2022 📍 Leiden, NL

- Specialization in Artificial Intelligence
- Overview on state-of-the-art techniques applied to domains such as sports, robotics, video games, etc.
- Thesis: Procedural Content Generation applied to Video Games level generation in *Celeste*

Master's degree in Complex Systems

École Normale Supérieure de Lyon

📅 Sept 2018 – Aug 2020 📍 Lyon, FR

- Interdisciplinary program
- Emphasis on Computer Science, Physics, Mathematics, and Complex Networks

Bachelor's degree in Physics

École Normale Supérieure de Lyon

📅 Sept 2017 – Aug 2018 📍 Lyon, FR

- Specialized courses in Physics and Chemistry
- Experimented-based coursework

Classe Préparatoire aux Grandes Écoles MPSI/MP*

Lycée du Parc

📅 Sept 2014 – Aug 2017 📍 Lyon, FR

- Intensive program preparing for the national french competitive exam for entry to engineering schools and ENS
- Combines courses from the fields of Mathematics, Physics, Computer Science and Engineering Sciences

WORK EXPERIENCE

Tech Lead Data & AI

Elsys Design

📅 June 2026 - Ongoing 📍 Valence, FR

- Leading data and AI initiatives within the R&D teams, from architecture and technical direction to hands-on delivery.

Freelance Data Architect/Scientist - R&D

Freelance

📅 February 2025 - June 2026 📍 Full remote - based in FR

- Worked with several recurrent customers on diversified projects: **Campus** (running training app), **Tellent** (hiring benchmarking), **alcemy** (optimization in cement industry).

ABOUT ME

"Bonjour! Young and dynamic french data architect/scientist, I am passionate about artificial intelligence and science in general as well as volleyball! I like to combine my passions together, like Data Science & Sports or AI & video games."

SKILLS

-  **Programming languages and tools**
Proficiency and strong interest in Python, Spark, Git, Julia; advanced notions on JS, C/C++, hands-on experience on Dataiku
-  **Interdisciplinary background**
Advanced competencies in Mathematics, Physics, and Computer Science, quick adaptability to new fields
-  **Communication**
Good communication skills due to my teaching experience and my internships
-  **Challenger**
Sharpened problem-solving skills, objectives and data-driven, experience in research through my internships in different laboratories

STRENGTHS

- Curious
- Highly motivated
- Adaptability
- Willing to learn
- Ambitious & Goal oriented

LANGUAGES

- French**
Native

●●●●●
- English**
Fluent

●●●●●
- German**
Upper-intermediate

●●●●●
- Japanese**
Elementary

●●●●●

- Responsible for creating and maintaining big-data pipelines from scratch, deploying ML models in production, conceptualizing data integration, as well as R&D in Machine Learning, codebase refactoring, and ad-hoc analysis to bring efficient solutions to existing data problems.

(Lead) Data Scientist

alcemy

📅 May 2023 - December 2025 📍 Berlin, GER (full remote)

- Developed and improved data integration pipelines to successfully import data from customers into a cloud system
- Created tools, visualizations, and automated checks to monitor customer data health & quality
- Hands-on Machine Learning in production, from setting up models to conducting experiments aiming at improving models with imbalanced, limited, and/or biased data
- Responsible for estimating the time and technical scope of new features as well as their implementation
- Lead component: responsible for knowledge transfer, solution framing and formation about the entire data integration pipeline since May 2024

Data Scientist Intern

Thales (Defence and Mission Systems)

📅 Mar 2022 – Sept 2022 📍 Bordeaux, FR

- Data exploration, Machine Learning algorithms and statistical modeling on fighter jets usage data
- Hands-on a large scale project and data science platform Dataiku

Lecturer for a Mathematics Refresher course

Leiden University

📅 Nov 2021 – Nov 2022 📍 Leiden, NL

- Lectures about linear algebra, statistics, and probabilities for Leiden University MSc. students

Internship in Geomorphology, Data & Image Analysis

EVS - CNRS Lyon

📅 Jan 2020 – July 2020 📍 Lyon, FR

- Detection and characterization of river styles from satellite images, combining Python development, machine learning, and hydrogeomorphology

Internship in Astrophysics, Image Analysis & Signal Processing

Lyon Observatory - CRAL

📅 Apr 2019 – Aug 2019 📍 Saint-Genis-Laval, FR

- Simulations of space observations: Python development, data analysis, and theoretical astrophysics

Internship in Soft Matter

Universiteit van Amsterdam

📅 May 2018 – Aug 2018 📍 Science Park 904 - Amsterdam, NL

- Studying the buckling of self-assembled colloidal structures through image analysis and particle tracking, at the Machine Materials Lab with Dr. Corentin Coulais

CERTIFICATIONS & CONTRIBUTIONS

📖 Publications

- Robinet, Louis, Marcello A. Gómez-Maureira, and Mike Preuss (2025). "Towards a Celeste AI Framework: Agent-free Automated 2D Level Generation for Multidirectional Platformers". In: *Proceedings of the 20th International Conference on the Foundations of Digital Games - FDG '25*. Association for Computing Machinery. URL: <https://doi.org/10.1145/3723498.3723796>.
