

LOUIS ROBINET

Tech Lead Data & AI

@ louisrobi@hotmail.fr 58 rue Bistour, 26100 Romans-sur-Isère
📍 France ☎ +33635399149

EDUCATION

MSc. Computer Science - Artificial Intelligence

Leiden University

📅 Sept 2020 - Dec 2022 📍 Leiden, NL

- Specialization in Artificial Intelligence
- Overview on state-of-the-art techniques applied to domains such as sports, robotics, video games, etc.
- Thesis: Procedural Content Generation applied to Video Games level generation in *Celeste*

Master's degree in Complex Systems

École Normale Supérieure de Lyon

📅 Sept 2018 – Aug 2020 📍 Lyon, FR

- Interdisciplinary program
- Emphasis on Computer Science, Physics, Mathematics, and Complex Networks

Bachelor's degree in Physics

École Normale Supérieure de Lyon

📅 Sept 2017 – Aug 2018 📍 Lyon, FR

- Specialized courses in Physics and Chemistry
- Experimented-based coursework

Classe Préparatoire aux Grandes Écoles MPSI/MP*

Lycée du Parc

📅 Sept 2014 – Aug 2017 📍 Lyon, FR

- Intensive program preparing for the national french competitive exam for entry to engineering schools and ENS
- Combines courses from the fields of Mathematics, Physics, Computer Science and Engineering Sciences

WORK EXPERIENCE

Tech Lead Data & AI

Elsys Design

📅 June 2026 - Ongoing 📍 Valence, FR

- Leading data & AI initiatives across R&D teams, from technical direction to hands-on delivery.
- Setting up data-audit methodologies and data/AI best practices, and building the technical-commercial (pre-sales) service offering.

Freelance Data Architect/Scientist - R&D

Freelance

📅 February 2025 - June 2026 📍 Full remote - based in FR

ABOUT ME

Data & AI tech lead and engineer with a strong scientific background. I design and ship production-grade data platforms and ML systems end to end – from architecture and pipelines to MLOps and applied R&D – turning ambiguous problems into reliable solutions and leading teams through mentoring and technical direction.

SKILLS

💻 **Data & ML engineering**
Python, Spark, SQL; production ML & MLOps, big-data pipelines, cloud & IaC (Docker, Terraform); Dataiku

🏛 **Scientific foundation**
Advanced background in Mathematics, Physics & Computer Science (ENS Lyon, MSc in AI); quick to master new domains

👥 **Technical leadership**
Setting technical direction, knowledge transfer & mentoring, and clear communication with technical and non-technical stakeholders

🏆 **Research & problem-solving**
Peer-reviewed publications and a rigorous, data-driven approach to open-ended problems

STRENGTHS

Ownership Technical leadership
Pragmatism Mentoring Adaptability

LANGUAGES

French Native ●●●●●
English Fluent ●●●●●
German Upper-intermediate ●●●●●
Japanese Elementary ●●●●●

- Worked with several recurrent customers on diversified projects: **Campus** (running training app), **Tellent** (hiring benchmarking), **alcemy** (optimization in cement industry).
- Built and maintained big-data pipelines from scratch, deployed ML models in production, and delivered R&D, codebase refactoring, and ad-hoc analysis to solve existing data problems.

(Lead) Data Scientist

alcemy

📅 May 2023 - December 2025 📍 Berlin, GER (full remote)

- Built and maintained the data-integration platform ingesting production data from 30–40 industrial clients (thousands of files, ~1M data points daily) into a cloud system.
- Refactored a manual client-onboarding process into config-driven pipelines, cutting the code to integrate a new client by ~10x (thousands to hundreds of lines).
- Delivered production ML across the client base: hundreds of prediction & optimization models (6–10 per client), from setup to experiments on imbalanced/limited/biased data; built monitoring for data health & quality.
- Lead of a 3-person team: technical scoping & estimation, knowledge transfer, and enablement across the whole pipeline (since May 2024).

Data Scientist Intern

Thales (Defence and Mission Systems)

📅 Mar 2022 – Sept 2022 📍 Bordeaux, FR

- Data exploration, Machine Learning algorithms, and statistical modeling on fighter-jet usage data, hands-on the large-scale Dataiku data-science platform.

Lecturer for a Mathematics Refresher course

Leiden University

📅 Nov 2021 – Nov 2022 📍 Leiden, NL

- Lectures about linear algebra, statistics, and probabilities for Leiden University MSc. students

Internship in Geomorphology, Data & Image Analysis

EVS - CNRS Lyon

📅 Jan 2020 – July 2020 📍 Lyon, FR

- Detection and characterization of river styles from satellite images, combining Python development, machine learning, and hydrogeomorphology

Internship in Astrophysics, Image Analysis & Signal Processing

Lyon Observatory - CRAL

📅 Apr 2019 – Aug 2019 📍 Saint-Genis-Laval, FR

- Simulations of space observations: Python development, data analysis, and theoretical astrophysics

Internship in Soft Matter

Universiteit van Amsterdam

📅 May 2018 – Aug 2018 📍 Science Park 904 - Amsterdam, NL

- Studying the buckling of self-assembled colloidal structures through image analysis and particle tracking, at the Machine Materials Lab with Dr. Corentin Coulais
